

Suhanee Shah

Full Stack Developer

Solapur, India | 9075312792 | suhaneeshah2145@gmail.com

PROFESSIONAL SUMMARY

Motivated Computer Science undergraduate at Walchand Institute of Technology with hands-on experience in full-stack web development and machine learning. Proficient in building end-to-end applications using React.js, Node.js, Express.js and Python. Developed a loan approval prediction system integrating XGBoost, SHAP explainability and Claude LLM, demonstrating ability to bridge ML and production web systems. Seeking an entry-level full-stack or backend developer role to deliver impactful, scalable solutions.

TECHNICAL SKILLS

Languages: Python, JavaScript, SQL

Frontend: React.js, HTML5, CSS3

Backend: Node.js, Express.js, REST APIs

Databases: MongoDB, MySQL

ML / Data Science: XGBoost, SHAP, Scikit-learn, Pandas, NumPy

Tools: Git, GitHub, Postman, VS Code

PROJECTS

Loan Approval Prediction System

2025

- Developed an end-to-end loan approval web application covering data preprocessing, feature engineering, XGBoost classification, model evaluation and production scoring.
- Implemented SHAP-based explainability for per-applicant feature attributions and integrated Claude LLM to generate personalized applicant summaries and clear rejection guidance for stakeholders.
- Built REST API (Node.js/Express) and React frontend; deployed Python ML pipeline for real-time scoring and integrated MongoDB for applicant data persistence.

Tech Stack: React.js, Node.js, Express.js, Python, XGBoost, SHAP, Claude API, MongoDB

Recipe Book App

2024

- Built a full-stack recipe management app with CRUD, search and filter features and a responsive UI; implemented RESTful API endpoints and persistent storage.

Tech Stack: React.js, Node.js, Express.js, MongoDB

RESTful API with Node.js & Express

2024

- Designed and implemented RESTful API endpoints with proper HTTP methods, request validation, error handling and response structuring following industry best practices.

Tech Stack: Node.js, Express.js, Postman

EXPERIENCE

Data Science Intern

Mar 2025 - Apr 2025

Skillcraft Technology | Remote

- Worked on data analysis and machine learning tasks using Python and relevant ML libraries.
- Applied preprocessing, feature engineering and model building techniques on real-world datasets.
- Collaborated with team members to derive actionable insights from data using Pandas and NumPy.

EDUCATION

Bachelor of Engineering, Computer Science

Jul 2023 - Present

Walchand Institute of Technology, Solapur, India
